

COSMETIC PACKAGING

Packaging plays a crucial role in positioning and elevating your product. Direct printing on glass or plastic cosmetic containers gives your product a premium finish, making it stand out from the competition.

ECO FRIENDLY: Screen printing reduces the need for additional plastic labels, making it more environmentally friendly by lowering the carbon footprint and improving recyclability.

HIGH QUALITY FINISH: Using rotary printing with organic inks, we ensure crisp, clean prints with a slightly raised texture, enhancing the quality of your product. We can print all around the container, even on flat-sided ones.
